THREE DIMENSIONAL FLOWERS IN LACE

This section is open to lacemakers, collectors and enthusiasts who possess three-dimensional lace flowers and to anyone who wants to have a try at creating designs on this theme. The Lace Promotion Committee, with the intention of raising awareness of the art of bobbin lace among students at upper-secondary school and helping them to approach lace in its creative significance and its complementary use in furnishings or decoration of clothes in an original way will collaborate with the Art School Liceo Artistico Fausto Melotti in this event with the production of designs, some of which will be interpreted and made by the students. The creation of designs inspired by the natural theme proposed (flowers – leaves – shrubs) is thus required. A selection among the works submitted (by a panel of judges consisting of subjects chosen among the teachers and the Committee) of three designs, from which pattern cards will be made and then lace works which will be exhibited at the event as a “sculptural work” alongside the works created in the area. All the designs submitted will in any case be exhibited.
